

Premier Fencing Product Guide

“We are more than just fencing.”

Premier fencing is a long established family business, which has reputation of quality, reliability and genuine customer care. We take great care to ensure that with low overheads and modern machinery we produce quality, value for money fencing products, with a service that is second to none.

Premier fencing realise our added responsibility to the environment so great care is taken in the selection of timber suppliers making sure they are sourcing from environmentally managed forests. But without any loss to the quality.

We believe fencing is more than just fencing, the style and design can give your garden a totally individual look making you the envy of all your neighbours. Fencing also gives your garden privacy, enabling you to relax in the tranquillity of your own space with out the outside world looking in. It is also a good deterrent to burglars.

Product Development

We are continually developing our range of products to provide innovative fencing and timber garden structures that will help you create an elegant, tranquil and if required private garden. Due to constantly developing our product range we reserve the right to amend our specifications with out notice.

Product Care

Timber is a natural material which can absorb and release moisture. Our products are designed to minimize this effect but under some circumstances some movement or distortion is unavoidable.

Premier Fencing

Premier Range

1.

Close Boarded Featheredge Panel

Premier Range

A traditional 'Supa Close' boarded design fully backed framed, clad with feather edged boards. Superb, strong and great value for money. Must be erected on minimum 100mm x 100mm softwood or slotted concrete posts.

Panel Sizes

6'x6' (183cm x182cm)
6'x5' (183cm x152cm)
6'x4' (183cm x122cm)
6'x3' (183cm x92cm)
6'x2' (183cm x60cm)

4.

Waney Lapped Panel

Premier Range

Our Lapped panels are manufactured in our own factory from high quality materials. The 'Lindsey Deluxe' superlap is a traditional 12 baton panel with 18" x 50" top and bottom rail. Our deluxe panels are treated with preservative after they have been manufactured to give it an attractive appearance and long life.

Panel Sizes

6'x6' (183cm x184cm)
6'x5' (183cm x150cm)
6'x4' (183cm x120cm)
6'x3' (183cm x90cm)
6'x2' (183cm x60cm)

2.

Vertical lapped Panel

Premier Range

The 'Kingston' panel is made using an overlapped vertical design, this makes the panel strong and rigid. Made from home grown timber and treated with preservative after manufacturer to give it an attractive appearance and long life.

Panel Sizes

6'x6' (183cm x184cm)
6'x5' (183cm x150cm)
6'x4' (183cm x120cm)
6'x3' (183cm x90cm)
6'x2' (183cm x60cm)

5.

Kesteven Round top Paling Panel

Premier Range

Even the basic of fencing can be attractive we do two types of paling panel. This is the round top Kesteven paling.

Panel Sizes

6'x4' (183cm x118cm)
6'x3' (183cm x87cm)

3.

Interwoven Panel

Premier Range

The 'Old English' panel mirrors the appearance of a traditional interwoven boarded fencing panel.

Panel Sizes

6'x6' (183cm x184cm)
6'x5' (183cm x150cm)
6'x4' (183cm x120cm)
6'x3' (183cm x90cm)

6.

Kesteven Pointed top Paling Panel

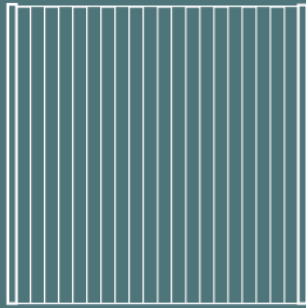

Premier Range

This is the pointed top paling panel.

Panel Sizes

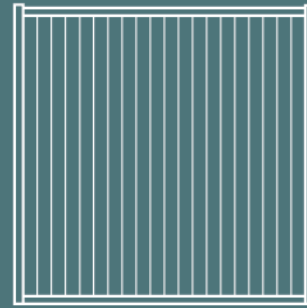

6'x4' (183cm x118cm)
6'x3' (183cm x87cm)

Premier Fencing

Cathedral Range

1.

Winchester Panel

Cathedral Range

The Winchester panel design uses horizontal boards with vertical supports and bowed frame work to create an elegant looking fence panel.

Panel Sizes

(183cm x180cm)

2.

Ely Bow Panel

Cathedral Range

The Ely Bow panel uses a diagonal design and incorporates an interesting 'V' style pattern, and lattice technique to give the fence a window effect.

Panel Sizes

(183cm x180cm)

3.

Ely Panel

Cathedral Range

The Ely panel is also made using the same diagonal design as the Ely Bow, it too has the window effect but has a flat top design.

Panel Sizes

(183cm x180cm)

4.

Lincoln Panel

Cathedral Range

The Lincoln panel has an attractive 'V' style design as the Ely but has no window so gives more privacy.

Panel Sizes

(183cm x180cm)

5.

Lincoln Bow Panel

Cathedral Range

The Lincoln Bow panel has the same curved frame work as the Ely Bow and interesting diagonal design but like the Lincoln has no window so is more private.

Panel Sizes

(183cm x120cm)
(183cm x180cm)

6.

Chester Panel

Cathedral Range

The Chester panel is our latest addition to the Cathedral range. It has the same design as the Winchester but has a crisscross lattice design at the top making this panel highly desirable due to its good looks.

Panel Sizes

(183cm x120cm)
(183cm x180cm)

Constructed using green pressure treatment giving it a look of quality. Held together with a rebatted frame and mortise and tenon joints makes this panel strong and durable. Due to the panel being 6ft wide you do not need to use shortened concrete gravel boards. They can also be fitted onto existing wooden or concrete posts.

Lattice Range

Lattice

Premier Lattice

Our lattice panels are made from quality softwood and are framed all round with 18mm battens with diamond lattice constructed from 4mmx37mm up to 6'x3' (183cm x 91.5cm) and 8mm x 37mm in 6'x4' (183cm x 122cm).

The lattice are pinned at each intersection making them extremely strong.

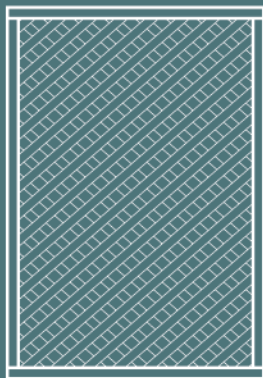

This Lattice is available in golden brown.
